

FERROFILL®

IRON DIETARY SUPPLEMENT FROM IRON FIBER RELEASER AND LIPOSOMAL IRON

WITH VITAMIN C, FOLIC ACID AND VITAMIN B12

PACKAGING: 30 TABLETS, 900 mg EACH

FEATURES

FerroFill is an innovative product to counteract iron deficiency. The special formula provides iron in two active forms: one slow release and the other highly bioavailable.

In particular, the Iron Fiber releaser technology, guarantees a disposal of the iron distributed within 24 hours. Liposomal Iron, instead, conveyed within a special pho-

spholipid membrane, has excellent bioavailability and tolerability, as well as efficient gastrointestinal absorption. Iron contributes to normal cognitive function, normal energy metabolism, normal formation of red blood cells and hemoglobin¹, normal oxygen transport in the body², the normal function of the immune system³ and the reduction of fatigue⁴.

New generation iron supplement

With Liposomal Iron and Iron Fiber Releaser. Modulated Release

FUNCTION OF INGREDIENTS

Red blood cell formation¹

Oxygen transport²

Immune system³

Reduction of fatigue⁴

RECOMMENDED FOR

- Non-pathological iron deficiency states or tendency to sideropenia
- In case of iron deficiency anemias resulting from acute or chronic blood loss
- To those who have reduced intestinal iron absorption
- For those who practice intense sports with a consequent decrease in iron
- For those who show declines in efficiency due to the need for iron

FERROFILL®

IRON DIETARY SUPPLEMENT FROM IRON FIBER RELEASER AND LIPOSOMAL IRON

WITH VITAMIN C, FOLIC ACID AND VITAMIN B12

INFORMATIONS

Iron contributes to normal energy metabolism, normal red blood cell and hemoglobin formation. Contributes to the transport of oxygen in the body and contributes to the reduction of fatigue. People who practice Intense sports activities may need nutrition richer in iron.

FEATURES

FerroFill® is an innovative product to counteract the iron deficiency. The special formula provides iron in two forms: a slow-release (Iron Fiber Releaser) and the other highly bioavailable (Liposomal Iron).

In particular, the Iron Fiber Releaser technology guarantees a disposal of iron distributed within 24 hours, thanks to the special processing together with natural fibers of carrot and citrus fruit.

The Oral Liposomal Iron instead, conveyed within a phospholipid membrane, has excellent bioavailability and tolerability, as well as efficient absorption gastrointestinal.

Iron contributes to normal cognitive function, normal energy metabolism, normal formation of red blood cells and hemoglobin¹, normal oxygen transport in organism², at normal function of the immune system³ and to the reduction of fatigue and fatigue⁴. The product does

Pregnant women have generally more need of iron. Recurrent blood losses can reduce physiological iron stocks. Vitamin C increases the absorption of iron..

not contain gluten (Gluten Free) is therefore also indicated for people with celiac disease or gluten intolerance. Vitamin C increases the absorption of iron and contributes normal collagen formation for the normal blood vessel function. It also helps reduction of fatigue and fatigue.

Folate contributes to the normal synthesis of amino acids and normal hemopoiesis. It also contributes to the growth of maternal tissues in pregnancy, to normal function of the immune system, to the reduction of fatigue and fatigue.

Vitamin B12 contributes to normal training the normal function of the immune system, reduction of fatigue and fatigue.

Vitamin B12 also intervenes in the process of cell division.

INDICATIONS

The product is useful to supplement any dietary deficiencies of iron.

HOW TO USE AND RECOMMENDED DAILY DOSE

1 tablet a day, swallowed with water. Take preferably on an empty stomach. In case of hypersensitivity to iron

supplementation, the product can be taken even after meals.

INGREDIENTS

Bulking agents: microcrystalline cellulose, dicalcium phosphate, hydroxy-propyl-methylcellulose; Iron Fiber releaser! [stabilisers: microcrystalline cellulose, acacia gum, hydroxy-Propyl-methylcellulose; Ferrous fumarate; Bisglycinate Ferrous; Sweetener: mannitol; Citrus fibre; Fibre carrot] 40%;

Vitamin C (L-ascorbic acid); Liposomal iron[Ferric diphosphate (ferric pyrophosphate); Starch; Emulsifier: lecithin]; Anti-caking agents: magnesium salts fatty acids, silicon dioxide; Vitamin B12 (Cyanocobalamin); Folic acid (Pteroyl-monoglutamic acid)..

TYPICAL VALUES		
	Per 1 cpr	% NRV
Total Iron	30 mg	214%
from Iron Fiber Releaser®	21 mg	150%
from Liposomal iron	9 mg	64%
Folic acid	200 µg	100%
Vitamin C	100 mg	125%
Vitamin B12	2,5 µg	100%

NRV: nutrient reference values (adults) according to EU Reg. 1169/2011

Warnings: food supplements should not be intended as a substitute for a varied and balanced diet and should be used as part of a healthy lifestyle. The product should be kept out of reach of children under three years of age. Do not exceed the recommended daily dose. The end date of validity refers to the product stored in a cool and dry place, away from

light and away from heat sources.

NOTE: The presence of dark micro-dots in tablets is due to the microspheres of the ingredient IRON FIBER RELEASER, is connected to the special modulated release formula and does not represent any abnormality of the product
